Cell Division Reconstruction

HFSP-CNB workshop.

28th February 2014

Lecture Hall

Centro Nacional de Biotecnología- CSIC.

C/ Darwin nº 3. Campus de Cantoblanco, Madrid

Details and on-line registration: <http://www.cnb.csic.es/~celldivision/>

PROGRAMME

10:00 am

REGISTRATION

10:30 am

Petra Schwille

The contractile ring - facts and fiction

11:15 am

William Margolin

Inhibiting the proto-ring, from A to Z

12:00 am

Martin Thanbichler

Mechanisms of MipZ-mediated division control in *Caulobacter crescentus*

1:15 pm

Lunch

2:30 pm

Miguel Vicente

Divisome adventures in maxicells

3:15 pm

Germán Rivas

Biochemical reconstruction of bacterial division in minimal systems

4:00 pm

Daniel Daley

The final stages of cell division in *Escherichia coli*: What happens and when?
